Robert has over 30 years experience as an architect. He founded the office of Robert Hill Associates in 1990. Prior to that time, Bob worked in both large and small architectural / engineering offices and for corporations such as the Marriott Corporation. He has provided a wide selection of services including architectural programming, design and planning, administration and management. Bob offers an individualized approach to both new construction and renovation of existing buildings.

While working as Senior Designer with the Interior Design Department at Marriott International, Bob's project involvement included feasibility and preliminary planning, project administration, design and coordination of interiors with the other disciplines.
